

FROM CATERPILLAR TO BUTTERFLY

The butterflies make the metamorphosis complete (from the Greek metamorphe "beyond the previous form"), because they have a life cycle with four very different stages: egg, caterpillar or larva, chrysalis or pupa, and adult or imago.

MAIN TASK .

Search information on the internet about the metamorphosis of the butterfly.

Analyze each of the stages and their duration.

Find out about other animals and their stages

METAMORPHOSIS.....

| STAGE | INFORMATION | DRAW | CURIOSITIES |
|-------|-------------|------|-------------|
| | | | |
| | | | |
| | | | |

WORKING IN GROUP (4)..... Choose the name :egg , Caterpillar, chrysalis, adult.

- With recycled material build a butterfly house.
- Build a house with recycled material.
- Decorate
- Introduce 20 silk worms
- Record the data of the transformation: (size, color, duration) and feed (number of sheets required).
- Make posters with the whole process and explain it to your classmates from other classes

EXHIBITION

Prepare an exhibition at the entrance of the school with all your work. Expose it to families.....

DIALY OBSERVATION.....

| DAY | CHANGES | CURIOSITIES |
|-----|---------|-------------|
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

ORAL PRESENTATION (Take care with....)

Order the ideas that you want to transmit

Make a script

Divide the exposure among all the companions

Use the elaborated material

Speak with the appropriate speed and intonation

Look at your viewers

.....AND GOOD JOB i!!!
